0. Don't plan to run in all of the races – take at least 1 weekend off. Running 2 of the races in the first 4 weekends is good enough. If you don't do the race, do 10 + 20 steady + 10 on the off weekend							
1. X-train = weights, cycling, swimming, etc. - something other than running. Keep the intensity reasonable on these days							
2. 2000TT = 2000m time trial (Girls will do 1600m)							
3. 4 x 300 – take about 2 minutes between reps							
4. 20 steady = 20 minutes at a bit slower than your x-c race pace – about 10 km effort effort							
5. 8 x 1/1 - run 1 minute hard, jog recovery 1 minute - repeat 8 times							
6. 6 x 3/2 = warm up then run 3 minutes hard (a bit quicker than your race pace – about 3-5km race pace), then jog 2 minutes. Repeat the 3/2 pattern 5 times, then cool down							
7. Hill sprints – sprint up a fairly steep hill for about 8 to 10 seconds, walk back down – do about 6 to 8 reps							
8. 10 + 20 hills + 10 – warm up for 10 minutes, run hill circuits for 20 minutes total, cool down for 10 minutes.
